

COOL BREEZE

L240 EVAPORATIVE COOLER

- HUGE COST SAVING
- COOL BREEZE HIGH QUALITY
- EASY TO OPERATE
- ROBUST AND RELIABLE
- 2 SPEED MOTOR

The Cool Breeze L240 cooler is a high quality, extremely cost effective cooler. It is manufactured to the Cool Breeze renowned high quality but has a simplified control system which allows for a great overall cost saving. The casing is manufactured from the well known Cool Breeze Luran-S plastic which is guaranteed against UV degradation. This is a high performance cooler fitted with the Cool Breeze 1000w motor and our standard 9-blade axial fan. The controller is an easy to use push-button with selections for FAN and COOL, as well as for HIGH and LOW speeds. When looking for a hard working and more cost effective Evaporative Cooler stay with the name you can trust – Cool Breeze, leaders in Evaporative Cooling in South Africa.
